These files can normally be extracted from the Company's payroll system, this is very helpful when there are a large number of employees for whom fringe contributions are being reported.

Whether you export from your payroll system or you use Excel to create spreadsheets with employee information, you need to save your file as a .CSV or .TXT file. Simply select “File,” “Save AS,” and choose .CSV or .TXT from the ‘Save as Type’ drop down list.

Below is the format that files need to be in to work with the upload process, the columns must be this exact order or you will get an error and not be able to upload the information. The Heading line (row 1; SSN, Workclass, First, etc.) cannot be in the file you try to upload, it would cause errors when uploading, the 1st row should contain 1st Employees info.

123456789	Contst Agc-NonPrev	Test	Data	M	40	7.66

- If data is incorrect you will get an error and the file will not be uploaded, you need to correct the file and make sure it is in the format mentioned on the prior page, and then try Uploading the file again.
